LEGISLATIVE BRIEF

HB 1728 removes protections for veterans, soldiers and others

H.B. 1728, the so-called “transgender rights” bill, is so badly worded it takes legal protections away from various groups of people who both need and deserve these protections. HB 1728, under Section 8, **takes away** legal protections from:

- **VETERANS**
- Members of the **ARMED SERVICES**
- People in need on **WELFARE**

It also removes these protections from people based on:

- CHILDREN
- MARITAL STATUS
- GENETIC INFORMATION

Do you really want to **discriminate against veterans and soldiers** who courageously served our country? Are you ready to remove protections from people who are married or have children?

Speaking of children, **HB 1728 tramples on their right to privacy**. No longer will women and children be able to feel safe in a public restroom. No longer will women and children be assured that the law protects them from men and predators who wish to do them harm.

HB 1728 is **poorly worded** and does much **more harm than good**.

Don't be fooled into supporting this bill.
