MFI Brief

WHY WE OPPOSE THE SEX EDUCATION MANDATE (SD579/HD827) *Health Curriculum Frameworks*

The Massachusetts legislature is considering mandating a controversial sex education framework for public schools across the state. Unlike topics such as math and science, there is no public consensus regarding sex education. Currently, local schools can decide for themselves what and when to teach the children in their community about sex, based on the unique needs of their student populations and desires of their parents. This bill would eliminate that right.

Loss of Local Control

If passed, this bill would remove control of health education from locally elected school committees and force schools to use curricula aligned with the “standards” of the state Health Curriculum Frameworks.

The bill gives complete control over local sex education curricula to the MA Department of Elementary and Secondary Education (DESE), which would “ensure compliance” with the frameworks. DESE has already published which specific curricula they believe are “consistent with” the frameworks, and the content is VERY disturbing.

Problematic Topics Required

SB2128/HB3704 mandates instruction on several topics that the average parent or school committee member would find objectionable. Many of the required topics are designed to be taught in a way that conveys implicit approval of sexual activity among very young students, despite the legal age of consent being 16 years old.

It grants DESE full authority to require classes for children as young as 12 years old to teach:

- How to obtain an abortion without parental consent or knowledge.
- How to engage in “safe” anal sex and oral sex.
- Encouragement of alternative sexual behaviors to avoid pregnancy.

In addition, this bill specifically requires classes tell students about “resources that offer support for lesbian, gay, **bisexual**, transgender, queer and questioning students.” Promoting homosexual and bisexual sexual acts as normal, natural, and healthy contradicts the religious teachings of many parents, and restricts their constitutional right to determine the moral upbringing of their children.

Please oppose the Health Curriculum Frameworks and any other efforts to remove control of health education from local parents and school boards.

Children Ages 5 - 10 will be required to:	Children Ages 11-14 will be taught:	Children would <u>not</u> be taught:
<ul style="list-style-type: none"> • Learn about “different sexual orientations, gender identities and gender expressions...” This means alternative families headed by same-sex parents or bisexual groupings. • Define sexual orientation, gender identity using the “correct” terminology, such as “heterosexual, gay, lesbian and bisexual.” 	<ul style="list-style-type: none"> • Acceptance of consensual pre-marital sex. • Moral acceptance of alternative lifestyles. • Methods for avoiding pregnancy and sexually transmitted diseases. 	<ul style="list-style-type: none"> • The importance of being married prior to engaging in sexual activity. • The high failure rate of condoms and other methods of preventing pregnancy and sexually transmitted diseases. • Presentations of fetal development to ensure balance in any discussion that educates children on how to obtain an abortion.

VOTE “NO” ON SD579/HD827
