## 2020 Goals

01

#### Church Outreach

The church is waking up to the issues of our day. We want to double the amount of church visits we had in 2019.

02

#### Policy Agenda

We had great success this year in defeating retail marijuana and comprehensive sex-ed at the local level, and we want to continue that trend in 2020.

03

#### Legal Resources

To expand our network of pro-family attorneys in 2020, we are partnering with the national Child and Parental Rights Campaign.

04

#### Media and Communications

Online communication is key to reaching younger generations. We want to increase our following on Facebook, Twitter, and Instagram.

We are your **resource hub** for family values.
