

# MASSACHUSETTS INFORMED PARENTS

Equipping Parents. Protecting Kids.

## Immediate Action Items:

1. Opt your child out of sex ed class. Find an opt out letter in the files section of the Massachusetts Informed Parents FB group. A Spanish version is also available.
2. Contact school officials and find out if sex ed is being taught and if so, what curriculum is being used. Ask for a complete list of videos, online resources, recommended books, referrals to outside organizations, referrals to websites, individuals or organizations that come in to do presentations on anything related to sex or gender, etc. Report back what you discover to [massinformedparents@gmail.com](mailto:massinformedparents@gmail.com) or [michael@mafamilly.org](mailto:michael@mafamilly.org).
3. Join Massachusetts Informed Parents FB group and invite like-minded friends to join too.
4. Schedule a Parent Information Meeting at an area church, library, or community center. Contact [massinformedparents@gmail.com](mailto:massinformedparents@gmail.com), [michael@mafamilly.org](mailto:michael@mafamilly.org), or text the word Education to 797979.
5. Contact your Representatives and Governor Baker to oppose the Sex-Ed Mandate ("Healthy Youth Act").

## Local Action Items:

1. Petition school officials to adopt an opt in policy that requires parents to sign a permission slip for children to be in sex education class.
2. Petition local school officials to oppose the Sex-Ed Mandate by writing a letter to their Representative and to Governor Baker.
3. Start a town FB group to address the issue locally and to gather a group of like-minded parents that can work together to make a difference.
4. Petition local school boards to use Sexual Risk Avoidance Curriculum instead of Comprehensive Sexuality Education. Learn more about SRA curriculum on [www.weascend.org](http://www.weascend.org).
5. Identify objectionable books that are in school libraries and petition school officials to remove them and/or take them off recommended reading lists for students. Plan a coordinated drip campaign of parents requesting for specific titles to be removed.

## Library Action Items:

1. Check local public libraries for objectionable content and ask the librarian to move books in the children and teen sections to the adult section.
2. Keep track of Drag Queen Story Hours scheduled in your area and report them to Massachusetts Informed Parents.
3. Oppose DQSHs by calling libraries and town government officials requesting that they be canceled. Organize a peaceful protest the day of the event if you are not able to get it canceled.
4. Lobby libraries to adopt a policy to prevent non-library employees from reading stories to children.
5. Or organize a story hour for children to read books that promote bible stories, traditional family values, beauty, and goodness.

## Other Action Items:

1. Withdraw children from public school and homeschool, enroll in private school or online private school.
2. Petition pastors to open affordable church schools in church buildings.
3. Write a letter to the editor for your local paper voicing your concern and to raise awareness to the issue of the sexualization of our children in public schools and in our public libraries.
4. Run for office, local government, state government, and school committee.
